

Program of joint meetings with clinicians 2019-2020 (Slovakia)

22nd meeting NOU-SAV-LFUK – 23.10.2019

Sampling and flow - studies of pancreatic Ca, breast Ca, CRC, TGCTs, haematological malignancies - recruitment update from 9/19 to 10/19 - Dr. Kaľavská

Educational lectures:

- 1) Michal Mego: Chemotherapy of advanced testicular tumours
- 2) Ján Tkáč: Glycosylation in the diagnosis of oncological diseases
- 3) MUDr. Iveta Oravcová, PhD – Department of Oncohematology LFUK and NOU - presentation of the project of biobanking of acute leukaemias in NOU - proposal for cooperation for workplaces BMC SAV, LFUK
- 4) Dr. Palacka / Dr. Slopovský – discussion on the possibility of epigenetic analyses of bladder Ca

23rd meeting NOU-SAV-LFUK – 19.11.2019

Sampling and flow - studies of pancreatic Ca, breast Ca, CRC, TGCTs, haematological malignancies - recruitment update for the last month - Dr. Kaľavská

Educational lectures:

- 1) Michal Mego: Adjuvant treatment of breast cancer (stage I-III)
- 2) Svetlana Školeková: Basic methods of culture and characterization of tumour cell lines
- 3) Conference reports - CA IX – Dr. Kaľavská, Dr.Schmidtová
- 4) Progress of projects

25th meeting NOU-SAV-LFUK – 22.1.2020

Sampling and flow - studies of pancreatic Ca, breast Ca, CRC, TGCTs, haematological malignancies - recruitment update for the last month - Dr. Kaľavská

Educational lectures:

- 1) Eva Zomborská: Adjuvant treatment of colorectal cancer
- 2) Pavol Janega: Tissue microarray, advantages and disadvantages
- 3) Progress of projects

26th meeting NOU-SAV-LFUK – 26.2.2020

Sampling and flow - studies of pancreatic Ca, breast Ca, CRC, TGCTs, haematological malignancies - recruitment update for the last month - Dr. Kaľavská

Educational lectures:

- 1) Štefan Porsok: Systemic treatment of colorectal cancer
- 2) Katarína Kaľavská: Susceptibility gene screening methods (Crisp, siRNA, other)
- 3) Progress of projects

27th meeting NOU-SAV-LFUK – 17.6.2020

Sampling and flow - studies of pancreatic Ca, breast Ca, CRC, TGCTs, haematological malignancies - recruitment update for the last month - Dr. Kaľavská

Educational lectures:

- 1) Michal Chovanec: Adjuvant treatment of testicular tumours
- 2) Progress of projects

Planned lectures:

Gabriel Minárik: Next-generation sequencing

Michal Mego: Systemic chemotherapy for breast cancer

Bozena Smolkova: Basics of epigenetics

Patrik Palacka: Systemic treatment of bladder cancer

Zuzana Sestakova: DNA repair, overview

Rejleková Katarína: Super high-risk patients TGCT

Marína Cihová: PDX models
