VISION

H2020-WIDESPREAD 2018-2020

Spreading Excellence
and
Widening Participation

This project has received funding from the European Union's
Horizon 2020 research and innovation programme
under grant agreement No 857381.

STRATEGIES TO STRENGTHEN SCIENTIFIC EXCELLENCE & INNOVATION CAPACITY FOR EARLY DIAGNOSIS OF GASTROINTESTINAL CANCERS

.BACKGROUND

Slovakia belongs to countries with the highest incidence of colorectal and pancreatic cancer in Europe. Early detection is key to improve patient outcome and quality of life. Therefore, strengthening of the scientific excellence and innovative capacity in translational gastrointestinal cancer research is a priority at both national and institutional level.

.GOALS

- Scientific excellence and innovation capacity
- Credibility, competitiveness and recognition
- New avenues of cancer research
- Personal and professional development of early-stage researchers and medical doctors
- Quality of education
- Public awareness of cancer

.STRATEGIES

- Creation of strategic partnerships/networking
- Transfer of knowledge and research ideas
- Sharing of know-how, expertise and best practices
- Implementation of cutting-edge technologies

.TOOLS

- Trainings in advanced methods & technologies
- Specialized courses
- Academic stays and secondments
- Seminars
- Invited talks
- Summer school
- Co-supervision of PhD students
- Workshops
- Conference
- Outreach activities

.STRUCTURE

- **WP1** – Management
- **WP2** – Strengthening excellence in GI cancer research
- **WP3** – Increasing the innovation capacity and skills of early stage researchers
- **WP4** – Mining and bridging the gaps between research and clinics
- **WP5** – Ethics requirements

.DISSEMINATION & EXPLOITATION

- Articles in peer-reviewed and high-impact journals
- New joint research project proposals
- Presentations at conferences
- Acquisition of cutting-edge technologies
- Transfer of know-how
- Networking
- Connections with regulators & pharma companies
- Opportunities for commercialization of results
